NOVITA' 2013

La Romagnoli ha trovato la propria dimensione, prodotti esclusivi, che, con il passare del tempo, ha permesso di creare una evoluzione anche nei prodotti economici ma di design.

A oggi la Romagnoli, ha deciso, con sua grande soddisfazione, di voler essere anche la prima azienda Italiana a poter fornire un coordinato di parquet in abbinamento alla sua vasta gamma di porte.

Obiettivo per l'anno 2013 si sintetizza in una sola parola; coordinato. Su questa parola abbiamo costruito la strategia aziendale per offrire ai nostri clienti degli arredamenti più omogenei ed armoniosi. Non produciamo per vendere, ma interpretiamo le esigenze dei nostri clienti e li facciamo prodotti.

The Romagnoli has discovered its own area of excellence, one which has led to an evolution in the creation of exclusive, economic and well-designed products.

Romagnoli has now decided, to their great satisfaction, to also be the first Italian company offering a flooring coordinated in combination with its wide range of doors.

Our target for 2013 may be summarized in one word; coordinated. With this word we are building the company's strategy, offering our customers furnishings which are more consistent and harmonious. We do not produce just to sell, but to interpret the needs of our customers and turn these needs into products.
