The ability of craftsmen from the Brianza area has fascinated me from a young age. Over time, this craftsmanship has evolved and developed into industrial production. I wanted to invite the architects to rediscover and exploit the unique skills of our master craftsmen. To create products, using the most sophisticated equipment and the finest materials, designed for ambitious and refined people looking for products in which differentiation and uniqueness prevail.

Laura Meroni

Surface Design

Reinventing material surfaces: "Surface design" is a term coined by the magazine "INTERNI" to identify LAURAMERONI products.

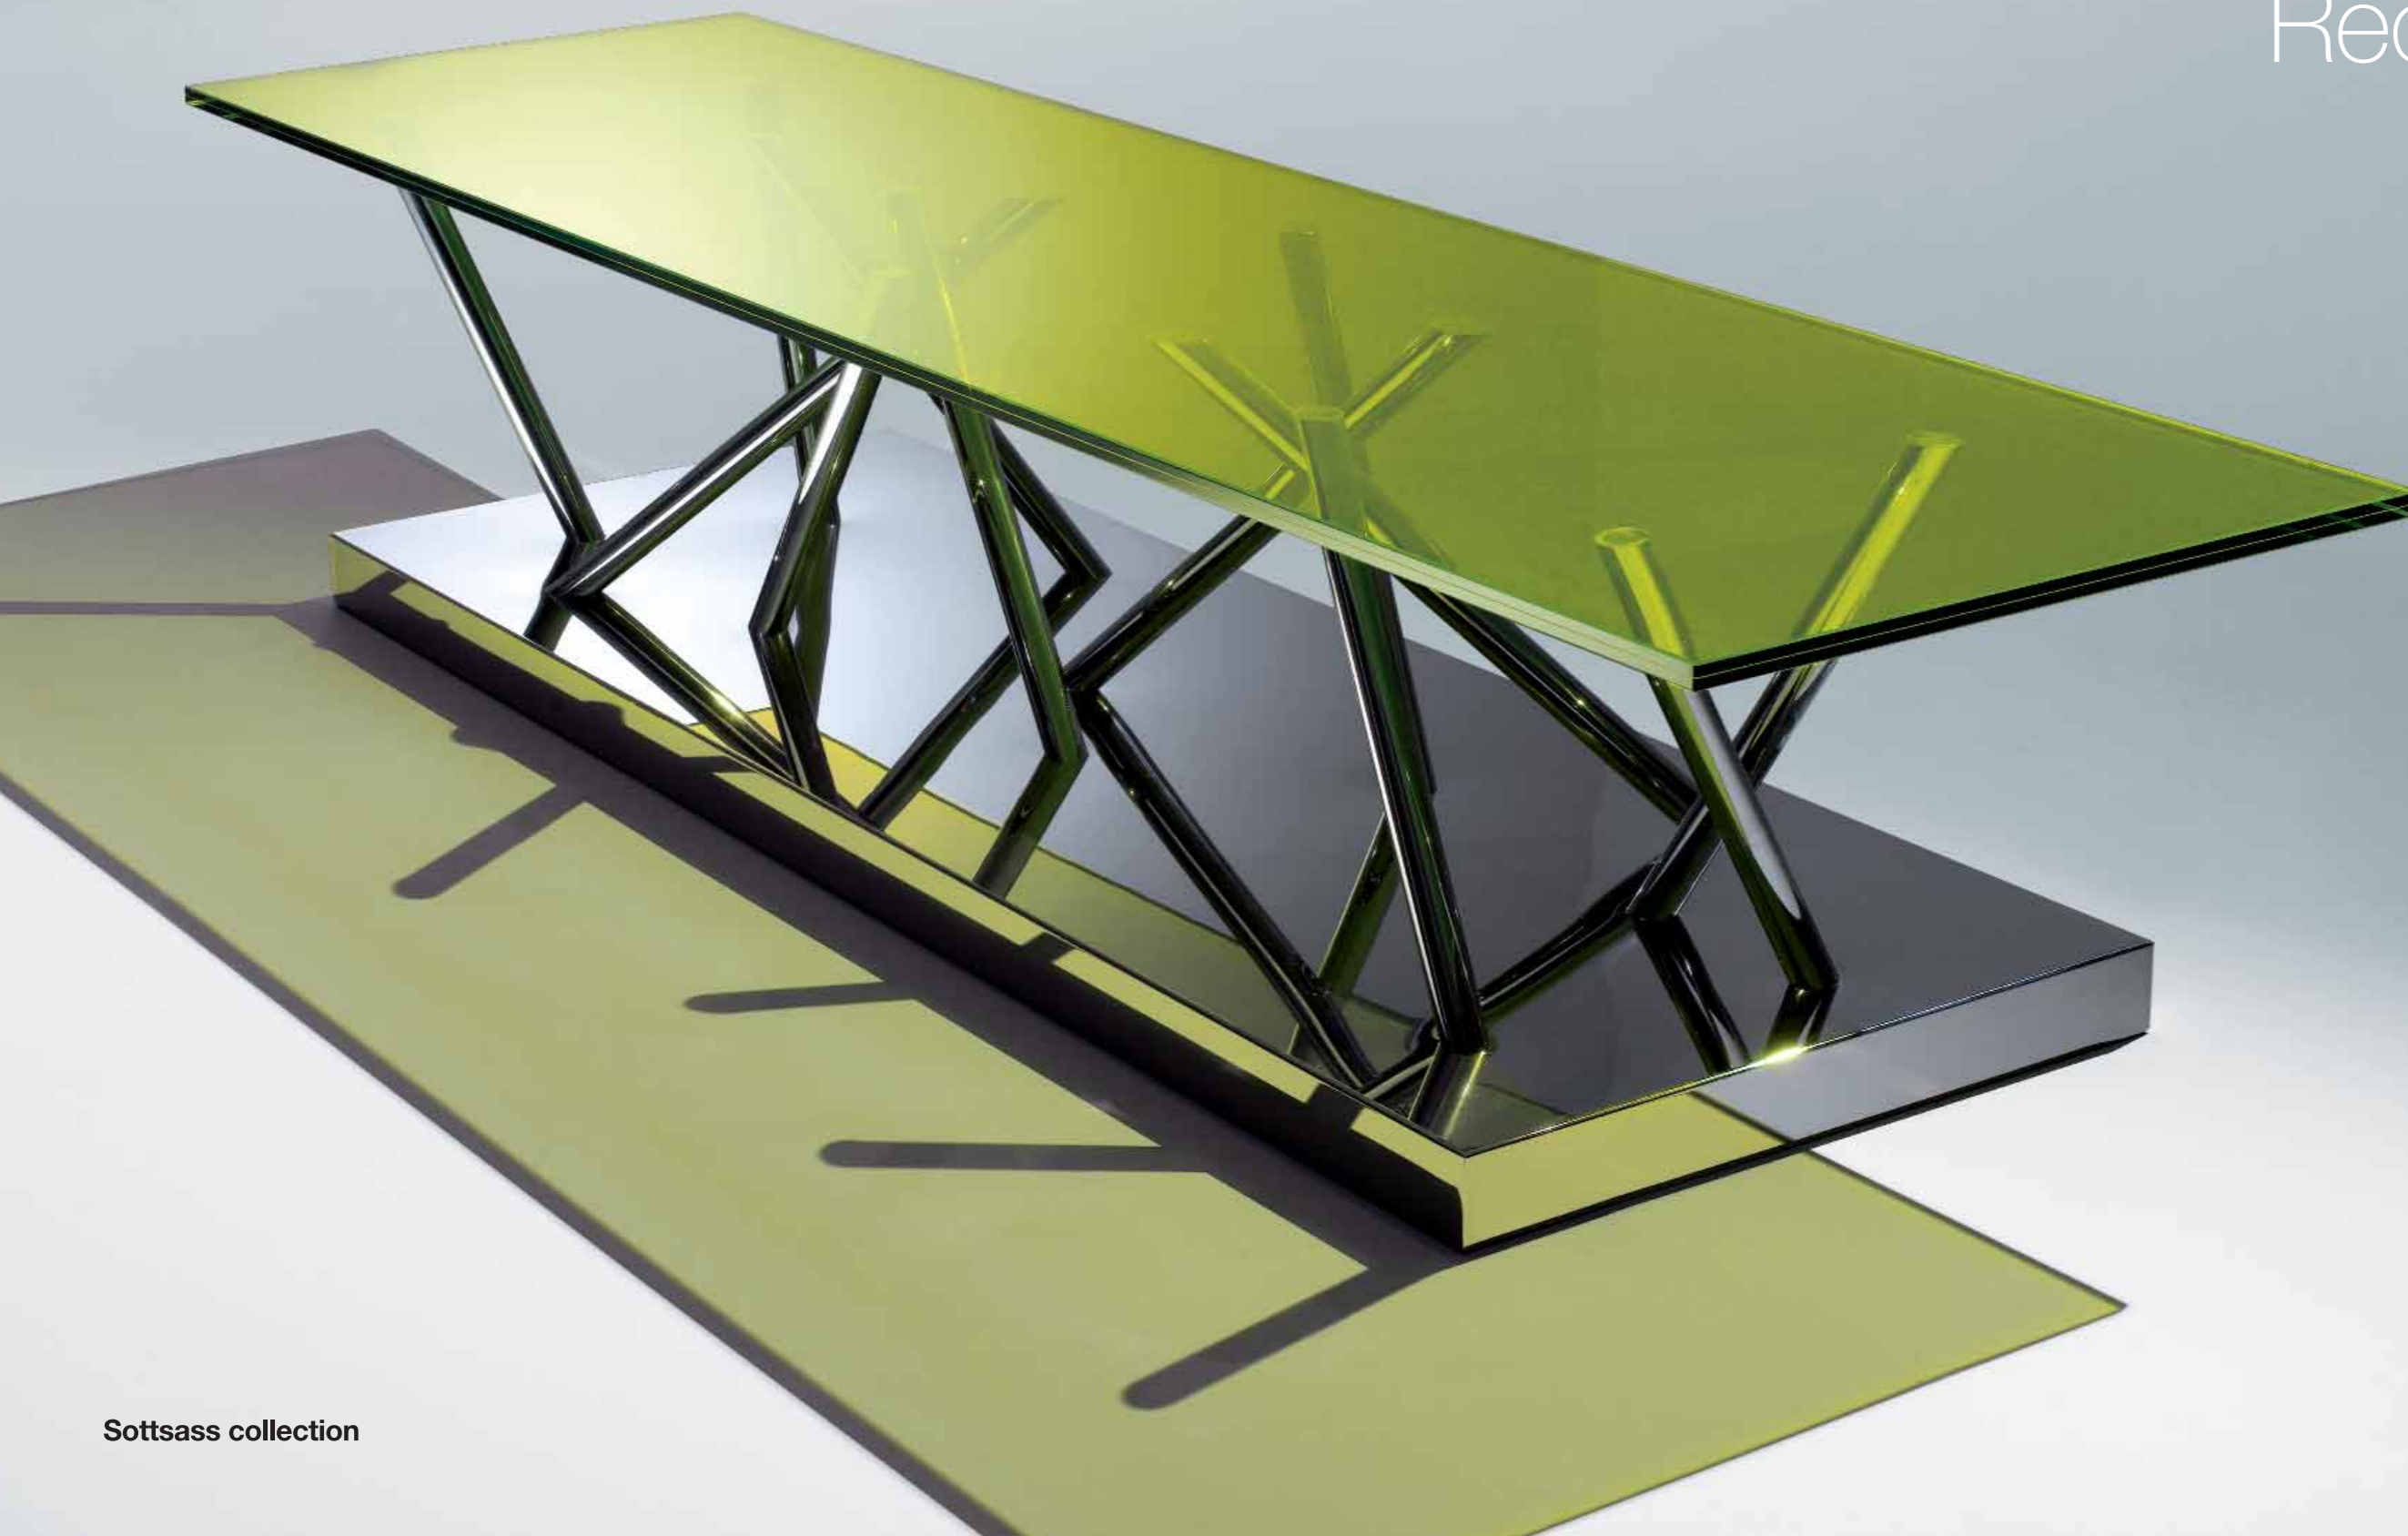

Stars collection

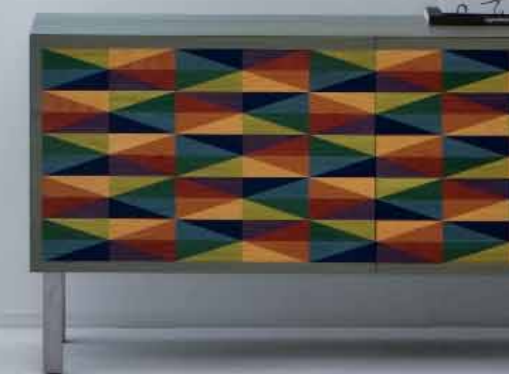

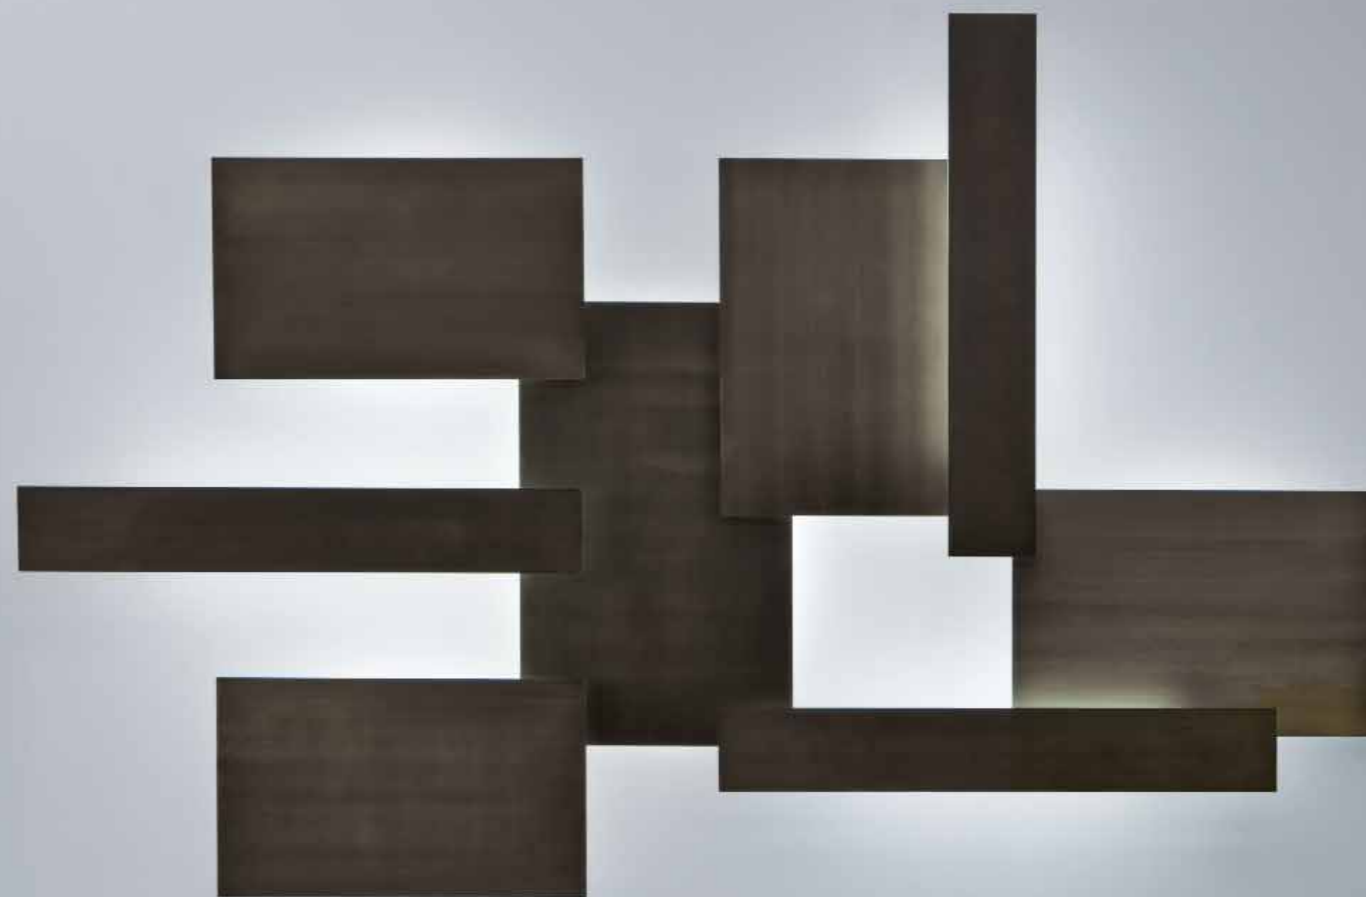

Recognition

Strong identifiability:
an added value
setting laurameroni's
products apart from
the multitude of
standardized proposals
for which the price
indicated is not
always acknowledged
as the true value.

Maxima collection

Laurameroni's
tactile design:
immediately
the customer
feels the quality.

Artistic manual skill

The true
made in italy tradition:
products in which
uniqueness
and originality
prevail.

Elements collection

Extra-ordinary

Laurameroni design collection is an innovative company that has developed its precise physiognomy in the crowded world of design by proposing solutions intended for people looking for furnishings with a strong personality, able to maintain a perfect balance between art, design and architecture.

Only the finest materials:
bras, copper, polished steel.
Rosewood, teak, walnut,
solid wood, blockboard,
multilayers, thick veneers.
Full grain leather
dyed in barrels.

made to measure furniture

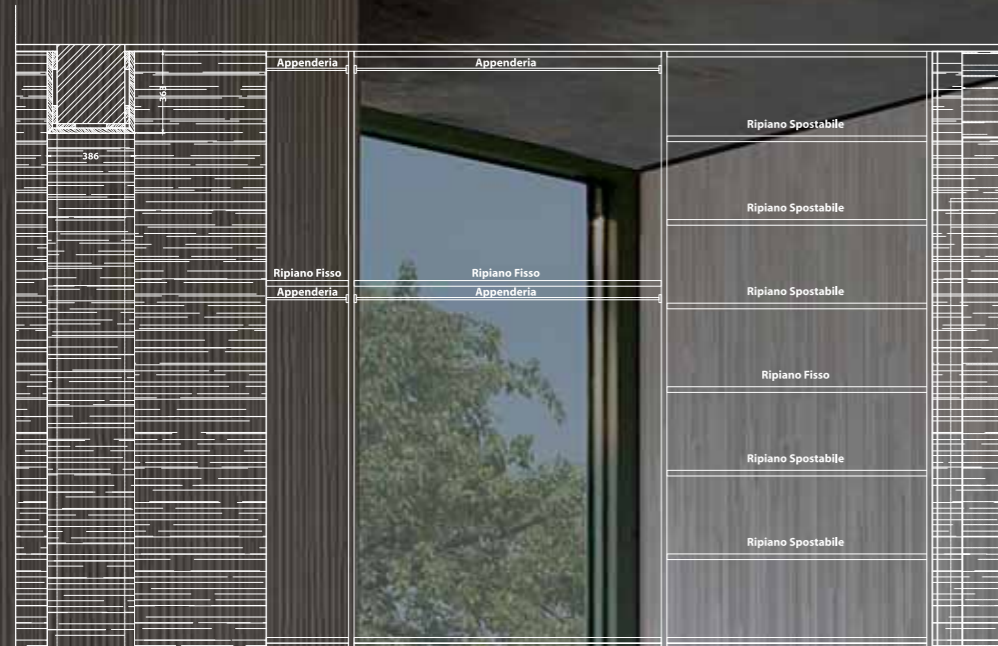

Laurameroni's technical department, creates made to measure furniture and designs in accordance with customers needs whilst staying true to the original design. A service that makes the product unique: the difference between atelier and prêt à porter.

A minimalist dining room featuring a dark, rectangular dining table with a textured top and four simple legs. A dark leather chair is positioned to the left of the table. The wall behind the table is covered in a dark, vertically-oriented, ribbed texture. Two square pendant lights with a metallic, brushed finish are suspended from the ceiling by thin wires. The floor is covered with a dark, textured rug.

Laurameroni
designs give
an idea of how
the company's
products can
be used to meet
the needs of
people searching
for furnishings
in which
uniqueness and
originality prevail.
